(In the space provided below, please explain in detail the reasons for the delay in filing a proper reply.)

The last office action was not received by mail or by email. I don't know how you can prove something did NOT happen, but I promise, I affirm and I swear I did not receive this latest office action until after I made a special inquiry on January 19, 2005, and my examiner faxed it to me.

I have no reason to fabricate this or to delay this. Paying more fees is not fun.

My mail service operates normally in all respects, except once every year or two exceptionally high winds have blown mail from my mailbox. (I don't believe this was the case here, since Sept/Oct 2004 were fairly mild.)

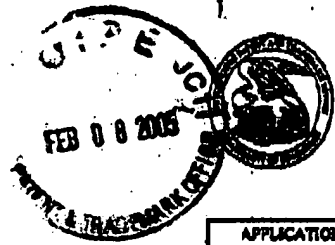

My examiner did acknowledge that in spite of the PTO's best efforts there are sometimes problems with the mail.

Please accept my petition under 37 CFR 1.137(a), as I could not timely reply without the office action. Also please communicate with me at my new permanent email address on this matter if possible at:

wtaylor@vistagaming.com.

Thank you.

Examiner Benjamin H. Layno		Art Unit 3712	

- The MAILING DATE of this communication appears on the cover sheet with the correspondence address -
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1, 3-5, 7 and 8 are rejected under 35 U.S.C. 102(e) as being anticipated by Miller.

The patent to Miller discloses a method of playing blackjack, using traditional playing cards, where at least one different winning player point score pays a different award, see table in column 5, lines 21-35. The table may be interpreted as:

	Dealer Total		Payout
If the player beats	17	= (Beat the Dealer with point score of 18)	2:1
If the player beats	18	= (Beat the Dealer with point score of 19)	3:1
If the player beats	19	= (Beat the Dealer with point score of 20)	5:1
If the player beats	20	=(Beat the Dealer with point score of 21)	11:1

Miller game may be played on an electronic gambling device, column 5, line 67 to column 6, line 3.

Application/Control Number: 10/045,250
Art Unit: 3712

Page 3

In regard to claim 5, Miller recites that the conventional rules of Blackjack are followed, col. 3, line 66 to column 4, line 12, wherein a winning Blackjack pays 3 to 2. Blackjack by definition is a two-card hand of an Ace and a Ten value card forming a hard point total of 21. The winning point total of 21 shown in the table above inherently includes soft point totals, which has a different payback 11:1 than the hard point total of 21.

3. Claims 10 and 13-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Vancura.

The patent to Vancura discloses a method of playing blackjack, using traditional playing cards, comprising the steps of paying cash on areas 18, 20 for the right to play, and a player receiving a different award for the number of cards taken (hits) to make up the player's point score, see pay table in Fig. 3. The player may be paid for a losing (bust) hand, col. 5, lines 61-64.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claim 12 is rejected under 35 U.S.C. 103(a) as being unpatentable over Vancura in view of Miller.

In view of Miller's teaching of electronic blackjack gambling devices above, it would have been obvious to provide an electronic gambling device version of Vancura's

Application/Control Number: 10/045,250
Art Unit: 3712

Page 4

game. This modification would have made Vancura's game more attractive to players who are more comfortable playing electronic gambling devices.

Claim Rejections - 35 USC § 112

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claims 1-15 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are: steps that a dealer and players must perform in order to carry out game play such as "each player placing a wager", "a dealer dealing two cards to each player, dealing two cards to the dealer", "allowing each player to take additional cards, as desired", etc. See the claims of Miller and Vancura.

8. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

9. Claims 2, 6, 10 and 11 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. In regard to claims 2, 6, and 11. It is not clear from reading the specification how the expected value of the claimed game can exceed 100%. If claimed

Application/Control Number: 10/045,250
Art Unit: 3712

Page 5

game has an expected value that exceeds 100%, then dealer (casino) is losing money for that game. The claimed game would not be profitable.

Furthermore, in claim 10 the claimed "achieving a pre-defined status in a player's club" is not recited in the specification.

Drawings

10. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the "electronic gambling device", "traditional playing cards" and a flow chart illustrating the steps of the method of play, must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will

Application/Control Number: 10/045,250

be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Benjamin H. Layno whose telephone number is (703) 308-1815. The examiner can normally be reached on Monday-Friday, 1st Friday Off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dennis Banks can be reached on (703) 308-7455. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
